Sir

I enclose a Bank
draft for \$1001. for which I desire you
to ship to me at my risk & for my
account 1000 Dollars in dimes, and half
dimes in such proportions as you find
convenient. The odd dollar I propose for
the expense of Box & Freight, but should
the expense exceed that, please let the
Transportation Comp. pay you, & let it
follow the Box, or send so much by coin
as best suits you. —

I beg to state the
purpose to which this coin is to be applied

They are for a notebook Bank for the conven-
-ience of counter change, when they will be
paid out 10 + 30 to the dollar. — They
are not wanted for any speculation or
profit, but merely for convenience, &
under these circumstances I trust
you will not hesitate in sending them.

Dear Sir

We have had a set of weights made, intended as a standard set by which to regulate the weight of the Packs in this City, and as you kindly offered to have such a set regulated for us at the Mint, we shall forward them by the transportation line of this afternoon for that purpose, they are contained in a Box enclosed in a Case directed to you to which the agent of the line will deliver to you at the Mint - as the weights of the several Packs in this City differ materially, it is very desirable that we should have a set upon which we can all rely as perfectly correct, and I shall esteem it a favour if you will have them adjusted & regulated as such as your Commission will admit, and it will afford us additional satisfaction if when completed, you will accompany them with your Certificate of their accuracy -

Will you please have the enclosed \$50. Note to Mr. E. Phelps as a Compensation to him for the trouble this Commission will occasion

him - will you please acknowledge the
rest of the weights and advise me at what
time they will probably be delivered -

I have respectfully to ~~the letter of the Superintendent of the 11th.~~
think I have been able to take of the question respecting the
designs on our new gold coins my preference remains strong
in favour of the simple fashion exhibited in the present
issue. But one regret is felt on this subject - that the views I
have taken have not I fear secured your entire approbation.

The correspondence which passed between
the Department and the Mint in ^{the year} 1831 in regard to an com-
munication of the Executive Warrant was referred to in my commu-
nication of the 9th. July a copy of ^{this correspondence} ~~which~~ is herewith presented
as it has occurred to me that the original may have been
lost in the destruction of the office by fire.

If it is permitted ~~to~~ me to act according
to my discretion in this case the gold coins ^{to be} issued after the
11th. December will bear the same designs and inscriptions only
as the half and quarter Eagles coined since the 11th. July, with
no change therein except what may arise from a more perfect
finish of the dies. In this particular there is room for a
higher degree of excellence. New new original dies shall be
executed with more ^{of the Executive} ~~care~~ than was allowable in the first

Director of the Mint

West of the United States
Philadelphia, ~~Sept~~ 18th 1834

Sir

I enclose I forward a Table
containing a List of European Gold Coins of a value
not exceeding \$1.50 as requested by the Department
under date of the ~~25th August~~ 25th September.

The latest date is given of the several
coins as furnished by the foreign Tables, which may afford
some indication as to the continuance of the issues thereof
within late years.

None of the coins enumerated have,
so far as known to me been at any time exhibited at the
Mint - the authorities relied on for their weight and fineness
of ~~the coins~~ ^{cut} ~~enumerated~~ from which their value under
the late ~~Law~~ has been computed, are the works of Benoitville
of Paris, and Savier of Geneva, together with Kelly's
Cambist: the edition employed of this last work mentioned
work is that of 1821, the latest that I have seen. It is to be
observed however that both Kelly in 1821, ~~and~~ ^{and} Savier
whose ~~Tables are of~~ 1807, appear to rely very much on Benoitville
whose work was published in 1806, and who appears to have
devoted himself to this inquiry with great assiduity, having
given a well executed delineation of the head and reverse

have been purified if all notes ^{less than} ~~under~~ five dollars, ~~gold~~
coins ~~of that~~ denomination ^{below the half dollar} should ^{be} taken forward ^{ready to}
issued from the Mint, ^{for all future accounts} being employed ~~in their place~~.

Patriotism demands of the friends of
a sound currency, that they should be content ~~with the~~^{to have the very minimum}
~~a little bit in the pocket.~~ The mines of the World do
not supply enough gold to sustain the ^{present} currency of Nations,
at this day, without greatly distorting existing engagements,
and all the relations of production and price, unless the
legal value of gold be enhanced beyond that which has at
any time been proposed as expedient. The quantity of gold
now extant in Europe in coin, it is highly probable, ~~would be~~^{would be}
percent; and with the added ~~weight~~ ^{amount} of the whole production
of the mines of Europe and America for 20 years would
still be insufficient to sustain ~~a well regulated currency,~~
the circulation of paper and England ~~together with~~^{to render them}
the United States if other were excluded ~~in its proportion~~^{to their amount}.
The amount ~~of paper~~ ^{of silver} must be reduced ~~below that which experience seems~~
to indicate as sufficient to maintain in full action the
various departments of human industry, stimulated as all
of ~~them~~ ^{they} have been during the last half century, by the pro-
gress of Science and the Arts within the present century.

these two Keys of Gold Coin amounting to seven
hundred thousand francs we have rec^d by the
last Packet Ship from Havre on account of the
first instalment under the Convention, we shall
therefore account to the United States or to the
Sec^y of the Treasury for the Amount thereof as it
shall be ascertained at the Mint. I much ac-
- cordingly request of you the favor to furnish me

with a statement of the gross weight before
melting, the gross weight after melting & the standard
weight & value, and you will please to transmit
and the Certificate as early as you conveniently can.

The Coin is in Napoleons, New Louis & Double Louis,
equal to 25000 Napoleons or 500000 francs, which
you will please receive into half and Quarter
Eagles of Hartford — If the gross weight shall
not be equal to 25000 Napoleons I must request
of you the favor to have the Coin Counted to

A. M. Manning
Pres. Com Bank

Philadelphia Dec 19. 1834

Dear Sir

I have your favor of the 18. and
have noticed with interest your remarks in reference
to a determination of our Small Silver Company
that I have believed you would certainly be
opposed to, and one which I still hope that
it will be found inexpedient & unnecessary to
adopt —

I have recently addressed two Com-
munications to the Secretary of the Treasury in
relation to our Small Silver Com. and the operation
of the Mint he, to which with his permission
I respectfully refer you — In these Communications
I have endeavored to show that our Silver Com.
may be retained in the Country upon our own Cir-
culation, without a resort to the Measure you
refer to — whether I have at all succeeded in
doing so, or whether the premises & Conclusions
therein stated are in any degree correct I must
leave to others to decide, but if it be true that

the measure suggested will obtain our Silver Coins,
or in other words, will render them more movable
liable to exportation than Gold, which is all
that should be either silver or gold, then it
will certainly be as well to be better than the
means of deterioration - besides is not questionable
whether the latter in the manner proposed would
not offend the public interest or aimed at?
I am inclined to believe that it would not -
an examination of its practical operation will,
I think disclose its defects, and I cannot think
that it would be generally viewed with favor
in any respect.

In answer to your inquiry as to the
amount of Silver that this Bank would probably
desire to have coined under the present law and
current operation of the act, I can only say
that it would necessarily be limited to an amount
much less than it would be if more perfect
facilities were afforded for more ready substitution
Coins - But as I believe I have before men-
tioned to you, should our Legislature at the approaching
Session prohibit the issue or circulation in this State
of Bank Notes under \$5. it will require in my
opinion at least three millions of Dollars in
Silver Coins to supply the place of the Paper

that will be withdrawn, and I consider it to be
very desirable that a large proportion of the
amount should be in Coins under 50 Cents -

I shall be happy to hear from
you while you are at Washington, and

Remain very respectfully

Yours Obedtly

Dear Sir

I thank you for your favor of the 8th of

if you will write me from Washington, and
I doubt not but you will be able to Communi-
- cate interesting information - I yesterday addressed
a letter to the Sec^y of the Treasury in relation to
the Coinage & Circulation of Silver Coins, and the
present incapacity of the Mint to furnish a
full Supply, and with his permission I shall
be pleased if you will send that letter when
at Washington - I have noticed the Remarks
of the Sec^y of the Treasury in relation to a Seigniorage
on the Coinage, and I should the more regret
the suggestion, if I did not feel confident that
he will upon a Review & further examination of the
Subject discover the injurious effects of the Measure -
You will be able to give him some useful infor-
- mation on the Subject -
We have this day rec^d. a further

Remittance of 18,100 Napoleons from Paris which

Dear Sir

Your favor of the 5th & Rec^d and
I enclose your remarks respecting Silver Coins and
your suggestions concerning the Coinage for us during
the present winter - I will now only remark
that I consider it of great importance that the
Country should be ^{supplied} abundantly with Silver Coins of the Ust States
than it has been, and I think that it can be
clearly shown that the interests of the Country
require that a large proportion of the Coins to be
supplied should be in the denominations of 25 Cents
& under -

We have Rec^d a further remittance
of 25000 Napoleons which we shall forward to
the Mint in the course of 3 or 4 days for recoinage
and having weighed they passed off sold by the
New Weighing Receipt Rec^d from the Mint, we find
the weight exactly that of the former passed as
returned by you about 8 Ounces, I am & am
therefore at request of you to ascertain whether

there has not been some error at the Mint
in weighing or returning the weight of that
Parcel, by the 25000 Napoleons deposited on
the 27. Ult. -

My dear Sir,

So it happened that I could not call on you, in person when in Philadelphia - I was obliged to use all possible dispatch in order to reach this city at the commencement of the session - My friend Mr Clay of Alabama whom I found at the North-American told me that he should keep a day in your city and stand in the Mint before leaving it - I left for him, a letter directed to you, since he arrived he ^{has} told me that it was not handed to him by the post-tender - - The principal object of my communication to you was ~~to request~~ that the officer of the Mint would pay me \$1000.00

in silver change - as small as coin
- convenient - dinner - half dinner & 25 ct
pieces - I wish that you would have
the box directed to "Geo. Alcott Esq

"To the care of Miss" James Read & Co
"Merchants

"Boston."

I will give a draft on Boston
for the amount & will pay
in this City as you shall
wish - I should be greatly
obliged to receive the accom-
-modation and I have to re-
-quest that you would con-
-vise me in formation - how soon
the packet can be made up and
forwarded - My wish is that
the box may be sent to Boston
by the earliest opportunity -

Bank of America Nov 1. 1834

Dear Sir

The amount of Silver Coin of the denominations of 50 Cents & under now in this City being quite small & inadequate to supply the present demand, and contemplating a greatly increased demand for these Coins for the coming season we and desiring of obtaining as early as may be a further and more ample supply, it is proposed therefore that some of the Banks in this City should send to the mint for receiving about one million of Dollars in Silver to be coined into 50, 25, 10 & 5 Cent pieces, and I request of you the favor to inform me that if we shall complete the deposit of that amount at the Mint by the 15th of the present month how long after that would it probably require for the Coinage thereof say \$50,000 in Dimes & half Dimes, \$50,000 in Quarter Dollars and an equal amount in half Dollars -

I am aware that your present means would not enable you to complete this Coinage within the period in which it will certainly be wanted, but presuming that you will ask for and obtain a large increase of appropriation, and that the Mint will soon be made amply effective, I desire to know the time required for the Coinage in case you should obtain an appropriation equal to your wishes -

Permit me too to add that considering the time & Circumstances as highly propitious for the Coinage of a large amount of Silver Change and believing that the wants of the Country will soon require it, I indulged the hope that the opportunity may be availed of and that the Mint may be adequate at an early day to furnish a full supply for the whole Country and as rapidly as it may be wanted, even if it should extend for a year or two to come to something like a Million of Dollars a Month as it may be required in the several denominations of 50-25-10 & 5 Cent pieces -

I am very respectfully

Esteemed Sir

Last Spring I sold a lot
of Gold Dust to George B. Nichols
about 150. Dents. or 175 Dents. Nichols
did not know anything about the
Gold, and let him have it at a
certain price, and if it lost at the
Mint, I was to make up the loss,
and if it gained, he was to pay me
the gain, he deposited the Gold in the
Mint in June or July last. I ex-
amined the books when I was
at the Mint in August last
and from the calculation that I could
make at that time I thought he
had received about \$5.00 more
than he gave me for it, and
he is only returning to me a
gain of about \$2.00; all that
I want is fair dealing according
to contract, and I am afraid Nichols
does not. he did not draw the
pay for the Gold until after
the 1st of August last. —

I am sure of the honor of

It is C. E. Henderson who deposited
Gold, Debt, Mulligan & Co in
the mint, in the month of
August last to the amount
of \$10074.00

Will you you be so
good as to give me a statement
of the Gold deposited by George C.
Nichols as above stated, in such
a manner, as I can compell
the said Nichols to pay me my
just rights, according to con-
tract. If there is any charge
for the above statement, call
on Messrs. Reeves Bush & Co. —
and show them this Letter and
they will pay you for me
Let me hear from you by
the next mail. —

I am with due respect your
obedient Servt. &c.
